617.20 Appendix B Short Environmental Assessment Form

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information				
Name of Action or Project:	÷			er Parie to me
Project Location (describe, and attach a location map):		*	***	
Brief Description of Proposed Action:	alcontres rational of the same states of	value (114 mar) and a superior (114 mar) and annual market (114 mar) and a superior (114 mar) an	nad e eminera san anna angle sancer catalogue sa canan	***************************************

5. Is the proposed action,	NO	YE	S N/A
a. A permitted use under the zoning regulations?			1
b. Consistent with the adopted comprehensive plan?	一	厅	计声
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YE
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental If Yes, identify:	Area?	NO	YE
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	MERITATION OF A PRESENCE DURING ARTS	NO	YE
b. Are public transportation service(s) available at or near the site of the proposed action?			
c. Are any pedestrian accommodations or bicycle routes available on or near site of the proposed a	action?	Ħ	
Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies:		NO	YES
10. Will the proposed action connect to an existing public/private water supply?		NO	YES
If No, describe method for providing potable water:			
11. Will the proposed action connect to existing wastewater utilities?		NO	YES
If No, describe method for providing wastewater treatment:			
12. a. Does the site contain a structure that is listed on either the State or National Register of Historic Places?		NO	YES
b. Is the proposed action located in an archeological sensitive area?			固
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, conta- wetlands or other waterbodies regulated by a federal, state or local agency?		NO	YES
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres:		es, e hoo	
14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check a Shoreline Forest Agricultural/grasslands Early mid-successi Wetland Urban Suburban		ply:	
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed	_ r	O	YES
by the State or Federal government as threatened or endangered?			
6. Is the project site located in the 100 year flood plain?	1	10	YES
7. Will the proposed action create storm water discharge, either from point or non-point sources?	N	10	YES
f Yes, a. Will storm water discharges flow to adjacent properties? NO YES			
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains Yes, briefly describe:	s)?		
	=		
			ALCOHOLD STATE OF THE STATE OF

18. Does the proposed action include construction or other activities that result in the impourant water or other liquids (e.g. retention pond, waste lagoon, dam)?	ndment of	NO	YE
If Yes, explain purpose and size:			
19. Has the site of the proposed action or an adjoining property been the location of an active solid waste management facility?	e or closed	NO	YES
If Yes, describe:			
20. Has the site of the proposed action or an adjoining property been the subject of remediati completed) for hazardous waste? If Yes, describe:		NO	YES
If Yes, describe:			Ш

Justions in Part 2 using the information contained in Part 1 and other materials submitted by otherwise available to the reviewer. When answering the questions the reviewer should be guesponses been reasonable considering the scale and context of the proposed action?" Will the proposed action create a material conflict with an adopted land use plan or zoning regulations? Will the proposed action result in a change in the use or intensity of use of land? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities? Will the proposed action impact existing:	No, or small impact may occur	Mod to la	erate erate eract
Justician in Part 2 using the information contained in Part 1 and other materials submitted by otherwise available to the reviewer. When answering the questions the reviewer should be guesponses been reasonable considering the scale and context of the proposed action?" Will the proposed action create a material conflict with an adopted land use plan or zoning regulations? Will the proposed action result in a change in the use or intensity of use of land? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities? Will the proposed action impact existing: a. public / private water supplies?	No, or small impact may occur	Mod to la	erate erate erate arge

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		
Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Paquestion in Part 2 that was answered "moderate to large impact may occur", or if there is a need to exelement of the proposed action may or will not result in a significant adverse environmental impact, part 3 should, in sufficient detail, identify the impact, including any measures or design elements that the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determinated or will not be significant.	plain why a lease compl have been i	particular ete Part 3.

may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

environmental impact statement is required.	mation and analysis above and any supporting documentation
